

# ShadeView Classic

**ShadeView Classic** This multifunctional fabric is most popularly used for external window shading. This stylish fabric protects your home from the harmful UV rays while still maintaining your view. ShadeView Classic has a high shade factor blocking up to 90% of the sun's rays, reducing the temperature inside your home and your energy costs. The stylish ShadeView Classic controls reflection while optimizing the view from your home or office.

Shade Elements – Shade Without Compromise.
