

ShadeView Urban

ShadeView Urban The range gets bigger, literally!

This multifunctional fabric for external shading now offers you versatility with a 3 metre width allowing for join free blinds. ShadeView Urban is a great alternative to those considering PVC alfresco blinds as it offers effective protection from the elements all year round. ShadeView Urban is ideally suited for west facing windows that need that extra protection that only a 5% openness fabric can deliver.

Shade Elements – Shade Without Compromise.
